Vision

The Company holds fast to a recharging approach with respect to the general determined textures for the season in perspective of the insecure texture showcase.

By focusing on our business, encourage globally our plans and growing our worldwide markets we will reliably convey client's esteem. Since every one of these activities influences us to come nearer to our clients.

Under this strategy the company keeps a direct load of general pervasive textures which encourages the company to take up snappy conveyance and value point orders.

Sustainability

We are a proud member of 'Better Cotton', most of our supply chain inducts sustainable cotton reducing carbon footprint and restoring the environment. It's what's on the outside that counts, Our sustainable begins with clothing that is better for the wearer and the planet.

Look good with Standards

From design to production, we are all about feeling good, looking good and doing good. All of our products are designs with a flawless fit and excellent styling. All our goods are produced with 100% Indian materials, locally available thereby reducing transport emissions. We follow highest standards of workplace ethics and environmental responsibility. We are a fully integrated facility having BSCI social compliance as well Higg worldly index environmental compliance.

We believe in women empowerment, for this reason all our artisans are women embroidery polytechnic educated for whom we provide equal employment opportunities, safe-working conditions and fair remuneration.

Commitment to quality:

We are 101 percent committed to quality and workmanship and continuous improvement of working practices and processes, all our goods pass through a 3 way inspection standard as per AQL, for this reason our factory is approved by AQF [Asia quality focus] for best production practices. We have also been issued ZED certification by Ministry of Commerce and industry in India, which merely means 'ZERO DEFECT, ZERO EFFECT' which is our clear commitment to quality as well as the environment.
